Scheduling ✓

Handy MD allows you to set appointments FAST and gives information
about past/next consultation in just ONE click. Also, it enables you to
have ONE DAY and MULTIDAY view of appointments, while the
color-coded circles provide you with visual data about the appointment
type. PLUS, it has never been easier to schedule and cancel
appointments, as Handy MD sends immediate NOTIFICATIONS
to the patient, saving you time and simplifying the organization of
workflow

Clear timeline ✓

Our calendar provides you with a SIMPLE overview of your work
schedule. It gives you ALL-IN-ONE scheduling page and simplification
of event tracking, thereby leaving you with EXTRA time to spend on
seeing your patients. LESS clicks and CLEAR visual record of the
timetable help you balance your everyday workload fast and easy.

Easy patient tracking ✓

Building a long-lasting relationship with patients is crucial for
doctors' practice. With Handy MD you can open all of your patient
data and history in minimum time and in just one window. It adds
a distinctive touch to your business and helps you learn more about
your client, making it easier to personalize your next appointment.

Statistics and analytics ✓

Handy MD allows you to COLLECT data and MONITOR your work
activities by giving information about INCOME per patient- TOTAL
and per visit. You can also CHECK the number of past appointments
according to the appointment type and monthly PAYMENT, enabling
the management to access the business statistics of doctor's
performances.

Extra patient care

Handy MD at the same time
KEEPS the doctor informed
about all the updates in his
or her relationship with the
patient, thereby giving
patient a personalized
experience and a sense of
security.

Easy rescheduling and cancelling

The application allows you
to easily postpone or
cancel existing
appointments without
having to lose time on the
search for the next free
appointment time.

Immediate SMS notifications and FRIENDLY reminders

You no longer have to
worry about awkward
cancellation calls or
reminders about the next
set appointment. Handy
MD sends immediate SMS
notifications to patients
and reminds them about
the appointment date.

Prearranging of appointment types

Handy MD not only enables
you to organize your
appointments, but also
allows you to determine the
type of appointment in
advance, which simplifies
the process of tracking
patients' data.

Fast exchange of patient data

Even when on holiday,
Handy MD works for you
by allowing you to
EXCHANGE patient records
with your colleagues and
be sure your patients will
get the adequate care.
